AMENDMENTS TO THE DRAWINGS

The attached sheets show proposed changes to Figures 12, 14, 16, 18, and 20-27. These sheets show changes to the original sheets including these figures. Most of the changes correct spelling errors. Figures 12, 16, 18, and 20-26 are amended change the label "power control device 84" to "communication line 78" to make those figures consistent with the specification. Figure 27 is amended to include a legend designating that figure as prior art.
